How the manual is organized

This manual guide provides detailed information about the different components of the product, its functions as well as instruction of purchase and support.

Symbol	Descriptions
 Text	Special Notes session
 Text	Menu item
{Enter}	Enter button
[Word Entry]	Text-box or List-box
<Tools>	Menu Tools

Introduction of Lexisgoo

With experience from developing several products in the past such as Mobitools and eDictionary Reader, we decided to create Lexisgoo with the desire to contribute with a high quality product for the PDA community.

The main database is edited by the latest version of WordNet from Princeton University with more than 185,000 entries. Lexisgoo also includes the following new features:

- Windows Mobile 6.0 ready **new**
- Wordnet 2.1 with more than 185,000 entries **new**
- Smart layout for viewing word's meaning **new**
- Fix bugs for Pocket PC Phone Edition **new**
- Support Phonetic Search
- Support square screen
- Smart favorites for better learning
- Enhanced Today plugin module for better use
- Smart lookup in Pocket IE and MS Word
- Arrange-able word-type in definition layout
- Enhanced best match searching
- Study assistant
- Anagram search
- Reads out text in English from the screen.

Installation for Pocket PC

Requirements: The product needs **17 MB** of free space, but while installing you must have 36 MB of free space as MS ActiveSync will copy a CAB file to the device and then remove it once complete. You need to have MS Active Sync Software on your device.

1. Unzip downloaded file to a folder with a zip tool. The popular unzip program **WinZip** is available at www.winzip.com
2. Run setup and follow instructions
3. When finished, go to **Start Menu >> Program**, here you will see the symbols of **Lexisgoo**  and **Lexisee** 

We recommend storing in the Storage Card when the installation asks to select **Main memory** or **Storage Card**.

 You can copy the CAB file to your device and run the CAB file directly but it will automatically install the software to the main memory.

Uninstallation

To remove the product from your Pocket PC:

1. Go to **Start menu >> Settings**
2. Open **System** and tap on **Remove Programs**
3. Select **Lexisgoo English Dictionary** from the list and tap on the **Remove** button
4. Choose "**Yes**" to confirm removing

Components of Lexisgoo

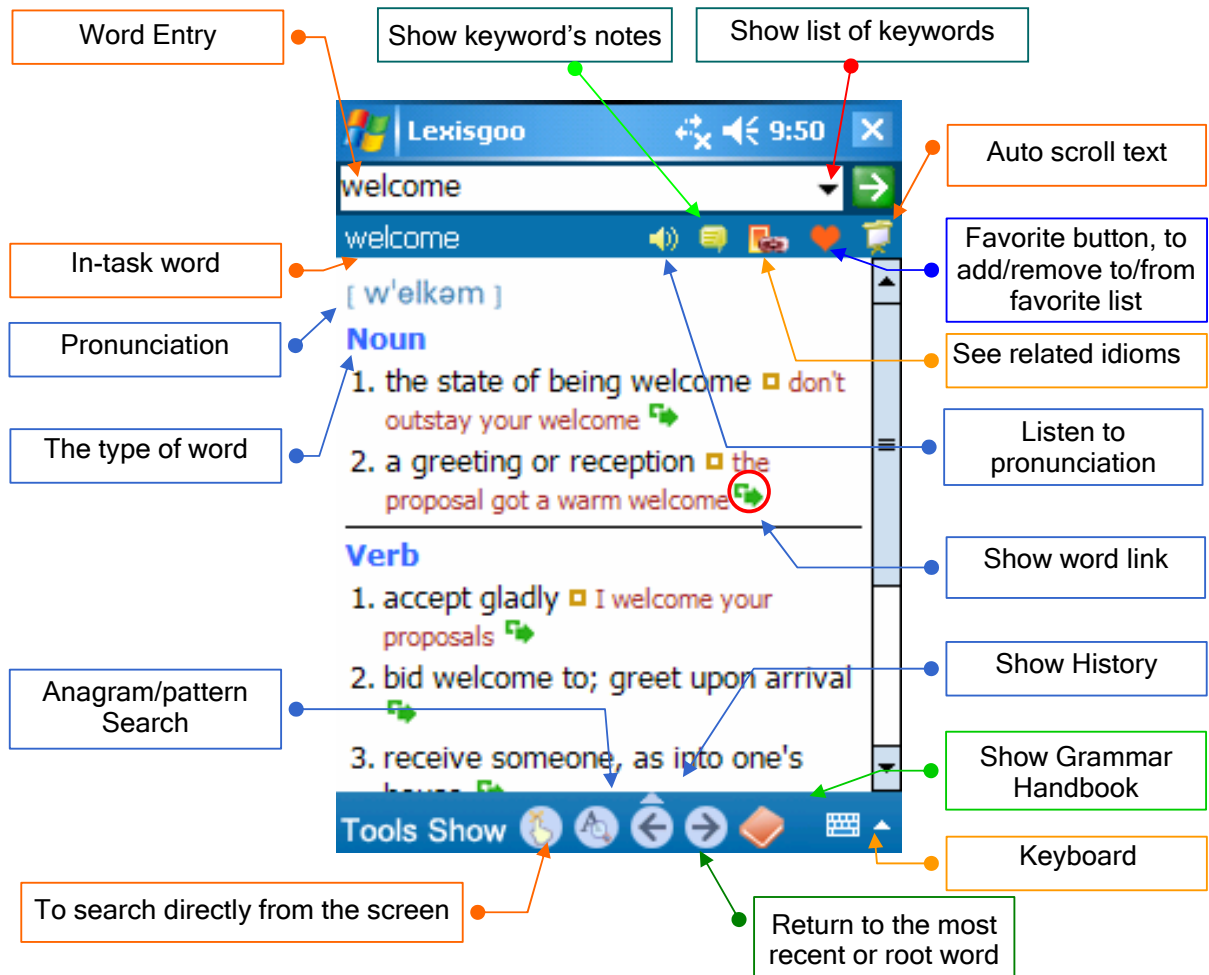

The product includes two components:

Lexisgoo: The main module that allows you to search by word, by fixed form, to listen to pronunciation or see related idioms

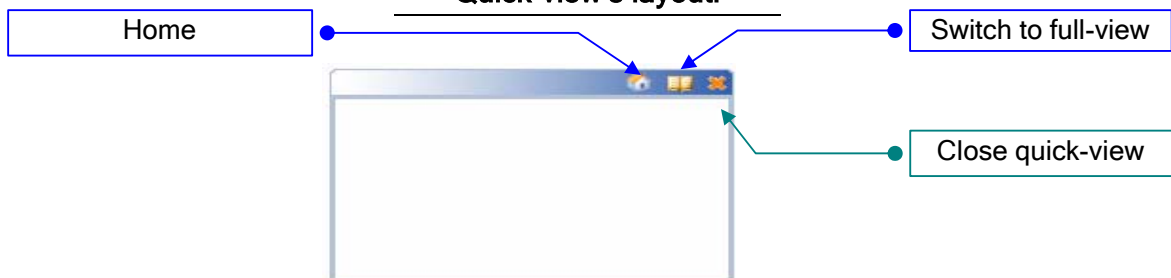

Lexisee: A module that enables you to search for words in other applications such as Pocket IE, MS Reader and Pocket Word.

Lexistudy: This special today plug-in module can help you to improve your vocabulary or prepare for exams.

Main Screen of Lexisgoo:

Quick-view's layout:

Instruction of functions

Word search: to search a word, simply type it in the textbox (using the standard  build-in keyboard), tap on the button and the meaning will appear. You also have the alternative of choosing the word from the list-box. If you want to see the Keyword List, just tap on the "Down-arrow" icon in the Word-Entry box

 The keyboard will appear automatically when tapping on the Word-Entry textbox. You can show/hide the keyboard by tapping on the keyboard button in the toolbar.

Searching for related words: For each word on the screen a link providing synonyms, antonyms and satellite word groups will be available. Tap on the link  to access the page with the different categories. To see examples illustrating idiomatic usage, tap on the  button. (This is a function only found in Lexisgoo)

Advanced Search:

Pattern Search: In addition to searching by the regular method, with Lexisgoo you can also search by pattern. For example:

- To search words including "tion", you type { *tion* }
- The "?" mark stands for one character.
- The "*" mark stands for none or several characters.

On the main screen, tap on the  button in the toolbar and then select  to facilitate the search. Type in the textbox and tap on 

Anagram search: With this function you can search for words built up by the same letters. All letters from the "board" box will be included, while only one letter from the "rack" box will be included in each word. You can sort the result alphabetical or by length. On the main screen, tap on the button  in the toolbar and select **2nd** tab

Phonetic search: You can perform sound-like searching by this function. On advanced search function select **3rd** tab

then you will see the screen as above.

[Adding notes:](#) With this utility, you can attach comments to the in-task word. On the main screen, tap on the  icon and enter your notes for the current in-task word, save notes by tapping on the  button.

 If a keyword contains a comment, the Notes Icon will change color to . To remove your comments, just tap on the icon again, delete all text and choose "**Save**".

[Audio Pronunciation & Reading text:](#) Lexisgoo is the first program that provides word pronunciation. After searching, tap on the  button to hear the audio pronunciation. From version 2.0 you can hear pronunciation of all keywords and read out text from other applications(see using lexisee for further information). Together with the phonetic transcript feature, it can be a helpful function for improving your pronunciation.

 For the audio feature to work properly, please make sure that you have activated sounds for Programs at **Start menu >> Settings >> Sounds & Notifications**

[Using favorites list:](#) To add a word to the favorites list, just tap on the  button and then you can choose group that you want to place selected keyword in, if you want to create a new group just do **Tap n Hold** and you will see the popup menu as beside then choose "Add".

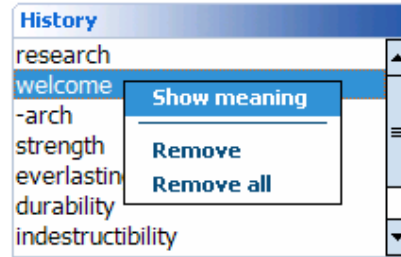

To remove a word from the list, merely tap on the  button again.

[Using history list:](#) This is a list of the words previously looked up. At present, the list is limited to **500** words and they are stored automatically. To access the list, tap on the () button. If you tap on the back-arrow, you will get the most recent word.

If you want to remove a word from the history list, just

“**Tap N Hold**” on the list then you can see the pop-up menu as beside:

Grammar Handbook:  This is a special feature from version 1.2. The Grammar, Punctuation, and Capitalization Handbook can be a useful assistant while writing. Here functions like checking irregular verbs, verb form and misplaced adverbs are offered.

 From version 2.0 you can create your own Grammar book by using the **Grammar Book Builder, our new freeware.**

Menu Tools includes the following functions:

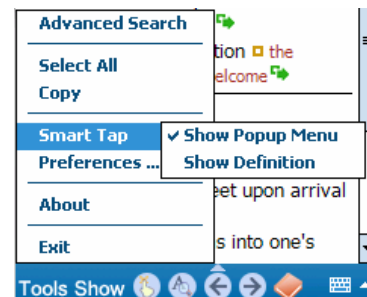

◆ **Advanced Search** To search for a special pattern such as “? *” or Anagrams.

◆ **Select All** To select all text in the active window of Lexisgoo.

◆ **Copy** To copy a selected section

◆ **Preferences...** To configure Lexisee and Lexisgoo.

◆ **About** To show copyright and registration of the product.

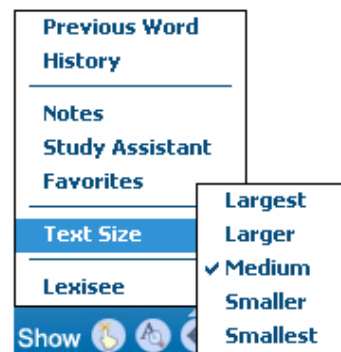

Menu Show: includes the following functions:

◆ **Previous Word** To return to the most recent word

◆ **History** During every work session the system will automatically save all words looked up to the history list

◆ **Notes** To show all words that have notes attached.

◆ **Study Assistant** To show study list, the list can be separated

into words studied by any week or month.

- ◆ Favorites To show favorites list
- ◆ Text Size To change the text-size in the meaning view
- ◆ Lexisee To active lexisee module

Preferences

This function will allow you to customize some features of this application.

General:

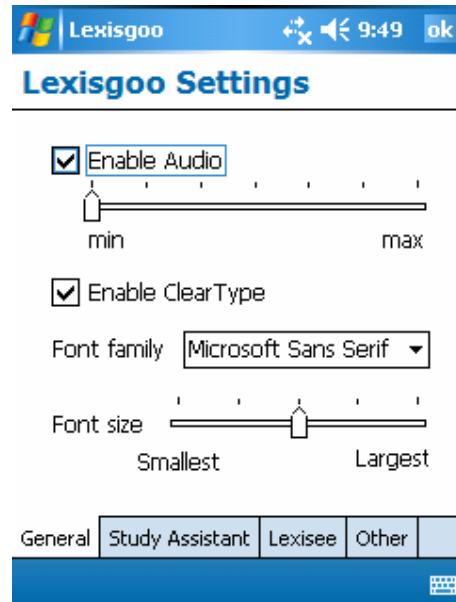

The settings are accessible through **Tools>>Preferences... >>General**

Enable voice: To activate the audio pronunciation feature. You can also adjust the volume of the voice (this is an internal adjustment and will not affect other applications)

Enable ClearType: If you want to read text clearer then choose this option.

Font family: Change font type in the meaning view

Font size: Change font size in the meaning view

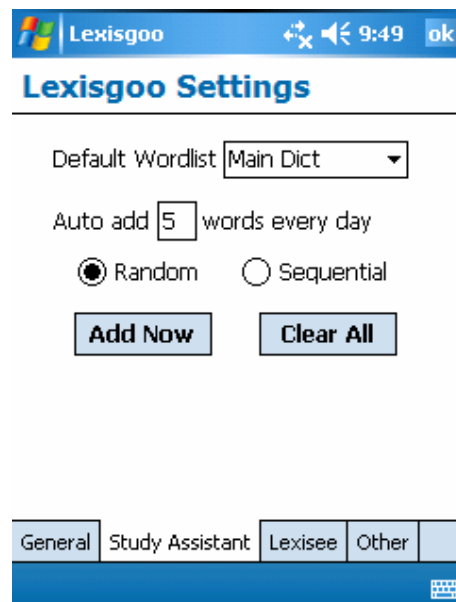

Study Assistant

Default Wordlist: choose the wordlist you want to use for your study assistant function.

Auto add: the number of words you want to be automatically added to the study-list each day.

Add Now: add the words to the study-list.

Random/Sequential: add the words to the study-list randomly or sequentially.

Clear All: To clear the study list. All previous studied words will be removed.

Lexisee

Auto Start: automatically start Lexisee when the device starts.

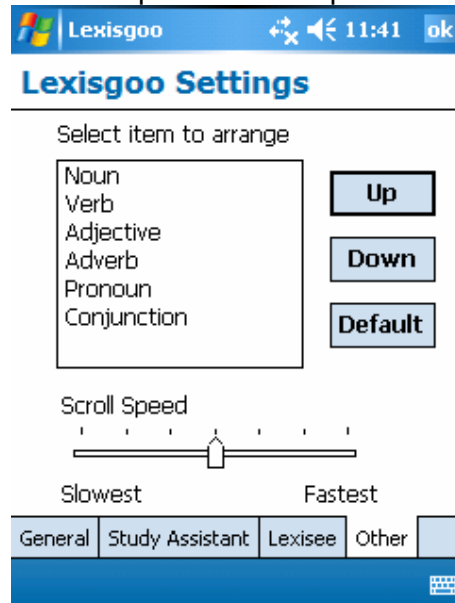

Approximate/Exact match: If this option is checked, the system will search for words with similar spelling if no exact match is found. If not checked, it will instead say "word not in word list!"

Auto attach to PW and PIE: If this option is checked then Lexisee will work as a Pocket Word or Pocket Internet Explorer's Component

Other

You can change word-type order in definition view in here, just select word-type and move up/down to arrange its order. This feature is very helpful for advanced learner.

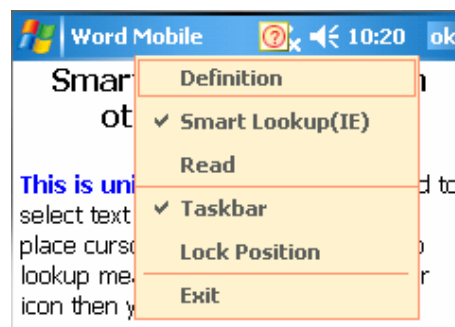

You also can change the speed of scrolling in the definition window.

Using Lexisee: To find words in other applications such as [MS Reader](#), [Mobipocket Reader](#), [Pocket IE](#), [Pocket Word](#) and [Notepad](#). **Lexisgoo** provides you with the **Lexisee** module.

Special feature: Lexisee supports smart text selection of editable objects and smart lookup word from Pocket IE(compatible with Multi IE and Pocket Plus). For example, from Pocket Word, just move  the indicator to the word you want to lookup and then tap on onto the Lexisee button to see the definition.

And If you turn-on "Smart **Lookup(IE)**" feature then you can lookup word in Pocket IE by tapping on word instead of selecting and then tap on Lexisee (see the beside picture). If you want to get further

information visit "**Virtual Tour**" at the product's homepage.

If you want to hear a long text read out, select the section you want to hear, "**Tap n Hold**" on the Lexisee button and then choose **menu** and **<Read>**

[Study Assistant](#): This special feature can help you to improve your vocabulary or prepare for exams.

You can setup the study assistant module from **Tools>> Preferences >> Study Assistant**. You also can use the Lexisgoo Today module for quick access; the chosen words will then automatically be displayed on the today screen each day.

 After you have seen the definition of a word, it will be moved to the "studied word list" which contains all the previous words studied. You can view these words from **Study Report**.

How to buy and register Lexisgoo

Lexisgoo English Dictionary is shareware product and it is free for 14 days while after that you have to register.

To register the software, order the product from:

1. www.ppclink.com
2. Pocketgear.com
3. Handango.com

 From the above addresses, we offer the same standard price. However, the price can vary at times between the addresses due to sale promotions.

* If you purchase directly from our websites at www.ppclink.com or www.deltago.com, you will receive an account by which you can download upgraded versions, submit questions as well as get access to our direct support. After purchasing, you will receive an email from **2CheckOut** and we will send you account information you should use to login to our website: <http://www.ppclink.com/?ppclink=member> to get the Serial Key. In case this is lost, you can re-login and receive a new one.

* If you purchase from Pocketgear, please send your **Receipt** and **Pocket Pc Owner Name** to license@ppclink.com then we will send you the key.

After receiving the registration key, unlock the product:

1. Go to **Start menu >> Programs** then tap on Lexisgoo icon to start.
2. Go to Menu **Tools >> About**.
3. Enter the key and tap on Register button.

 The Name on Lexisgoo's about box is not changeable, if you wish to change the owner name please go to **Start menu >> Settings >> Owner Information**

After successfully completing registration, please write down the name and number and store in a safe place. You will need the registration key if you are going to reinstall the software in a new device or in case your device is hard-reset. You can obtain support information or answers to frequently asked questions at:

<http://www.ppclink.com/?ppclink=product&do=view&id=22>
