Introduction of OxfordGo

The OxfordGo (dictionary reader), especially developed for the PDA community, is based on the renowned dictionaries from Oxford University Press. It allows you to use 5 different dictionaries such as Concise Oxford Medical, English – Spanish, Spanish – English, English – German and German - English at the same time.

- Concise Medical Dictionary © Market House Books Ltd 2003
- Concise Oxford Duden German Dictionary © Oxford University Press and Bibliographisches Institut & F.A. Brockhaus AG 2005
- Concise Oxford Spanish Dictionary © Oxford University Press 2004

This pocket PC version includes features and functionality – NOT AVAILABLE in the print version as following:

- Supports five Oxford dictionaries **new**
- Windows Mobile 5.0 ready **new**
- Improve Speech module **new**
- Smart text selection **new**
- Compatible with real VGA devices
- Anagram search **new**
- Smart lookup in Pocket IE and MS Word **new**
- Reads out text in English from the screen
- Support square devices **Treo 700w** and **hw6500** series
- Auto-scroll in definition window
- Smart favorites for better learning

Installation for Pocket PC

Requirements: The OxfordGo only requires 4 MB of free space, but if you install Oxford Dictionary data files then you have to check needed spaces for corresponding dictionary.

You need to have MS Active Sync Software on your device.

Unzip downloaded file to a folder with a zip tool. The popular unzip program **WinZip** is available at www.winzip.com

1. Run setup file with the name **OxfordGo_Run_This_First.exe** and follow instructions
2. When finished installing the reader please run the setup file for data (e.g: if you buy Medical Dictionary then run **Oxford_Med_Dict.exe**)
3. After finish installing data files, go to **Start Menu >> Program** here you will see the symbols of **OxfordGo**  and **OxfordSee** 
4. Open OxfordGo then here you go

We recommend storing in the Storage Card when the installation asks to select **Main Memory** or **Storage Card**.

 You can copy the CAB file to your device and run the CAB file directly but it will automatically install the software to the main memory.

Uninstallation

To remove the product from your Pocket PC:

1. Go to **Start menu >> Settings**
2. Open **System** and tap on **Remove Programs**
3. Select **OxfordGo** from the list and tap on the **Remove** button
4. Choose "**Yes**" to confirm removing

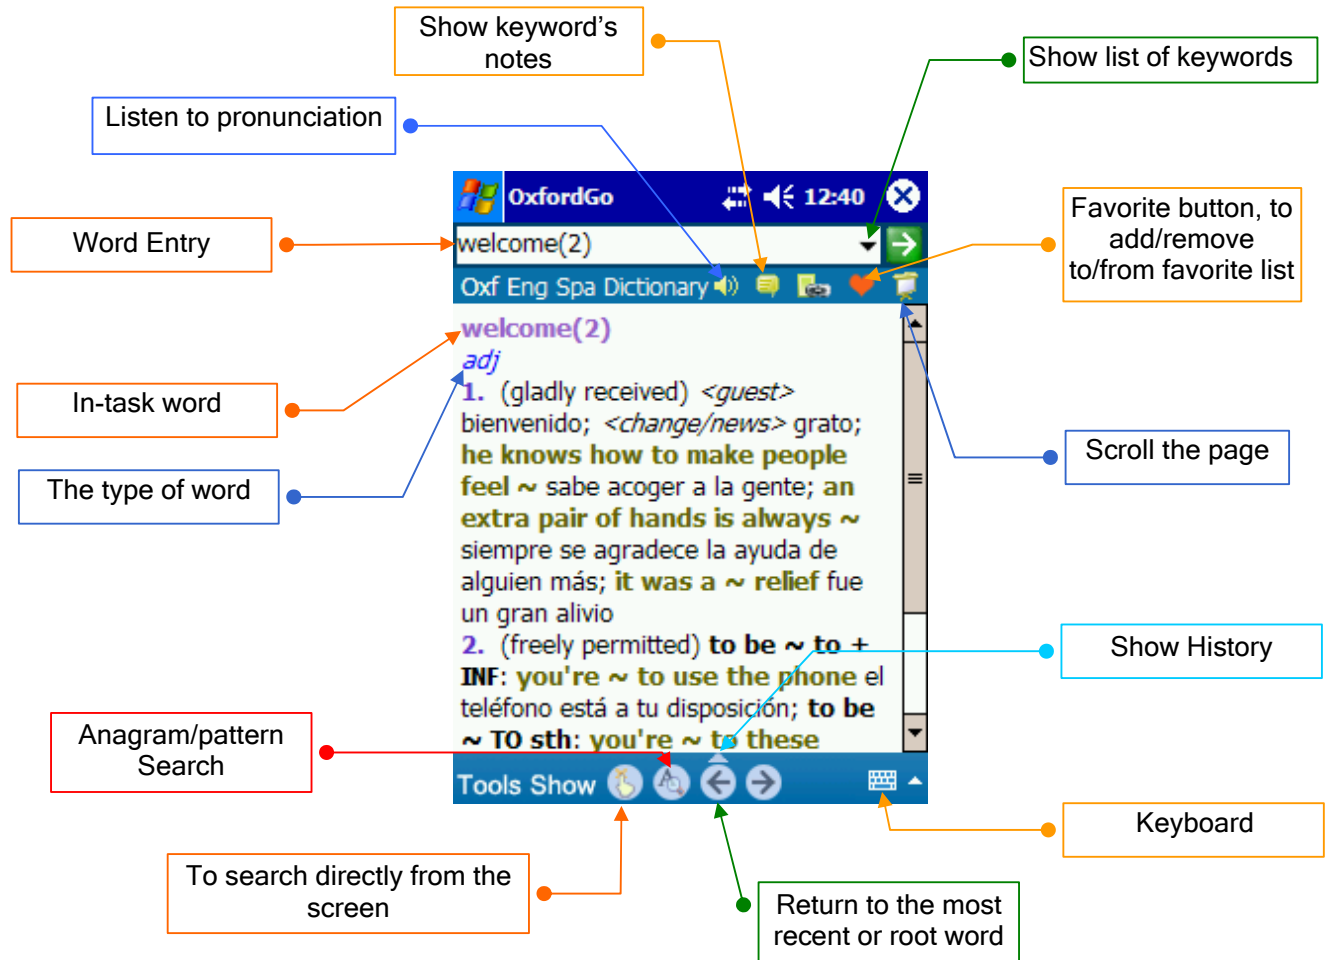

Components of OxfordGo

The product includes two components:

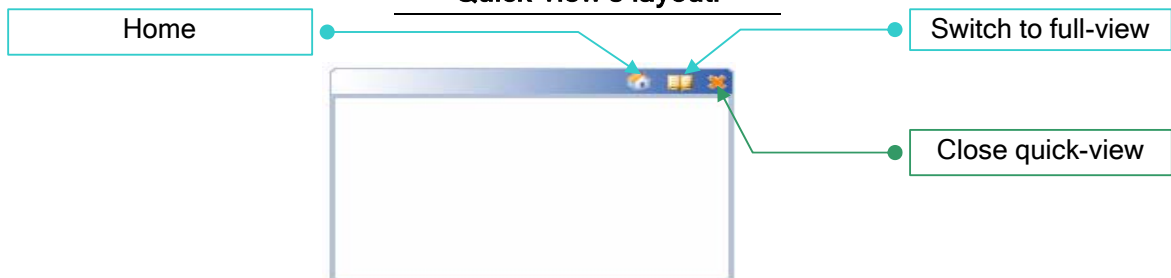

OxfordGo: The main module that allows you to search by word, by fixed form, to listen to pronunciation.

OxfordSee: A module that enables you to search for words in other applications such as Pocket IE, MS Reader and Pocket Word.

Main Screen of OxfordGo:

Quick-view's layout:

Instruction of functions

Word search: to search for a word, simply type it in the textbox (using the  standard build-in keyboard), tap on the button and the meaning will appear. You also have the alternative of choosing the word from the list-box. If you want to see the Keyword List, just tap on the "Down-arrow" icon in the Word-Entry box

 The keyboard will appear automatically when tapping on the Word-Entry textbox. You can show/hide the keyboard by tapping on the keyboard button in the toolbar.

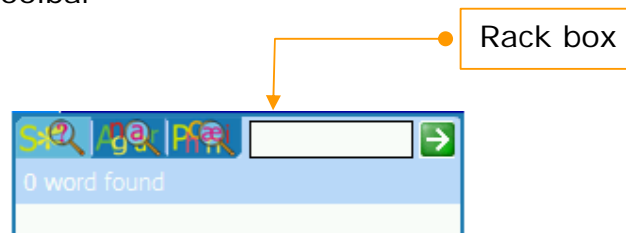

Advanced Search:

Pattern Search: In addition to searching by the regular method, with OxfordGo you can also search by pattern. For example:

- To search words including "tion", you type { *tion* }
- The "?" mark stands for one character.
- The "*" mark stands for none or several characters.

On the main screen, tap on the  button in the toolbar and then select to  facilitate the search. Type in the textbox and tap on 

Anagram search: With this function you can search for words built up by the same letters. All letters from the "board" box will be included, while only one letter from the "rack" box will be  included in each word. You can sort the result alphabetical or by length. On the main screen, tap on the button in the toolbar

Phonetic search: You enter an approximate spelling of a word. The phonetic search will return a list of words that SOUND like what was entered. Phonetic search will automatically search for words which are spelled differently but may sound the same

Adding notes: With this utility, you can attach comments to the in-task word. On the main screen, tap on the  icon and enter your notes for the current in-task word, save notes by tapping on the  button.

 If a keyword contains a comment, the Notes Icon will change color to . To remove your comments, just tap on the icon again, delete all text and choose "**Save**".

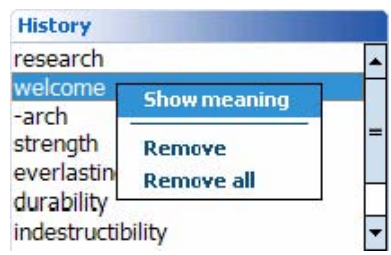

Audio Pronunciation: OxfordGo is using Flite audio module of Language Technology Institute - Carnegie Mellon University. After searching, tap on the  button to hear the audio pronunciation. In case of any discrepancy between the audio pronunciation and the phonetic information given in the Oxford dictionaries, the phonetic information is more accurate.

You can hear pronunciation of all keywords. Together with the phonetic transcript feature, it can be a helpful function for improving your pronunciation.

 For the audio feature to work properly, please make sure that you have activated sounds for Programs at **Start menu >> Settings >> Sounds & Notifications**

Using favorites list: To add a word to the favorites list, just tap on the  button. To remove a word from the list, merely tap on the  button again.

Using history list: This is a list of the words previously looked up. At present, the list is limited to **500** words and they are stored automatically. To access the list, tap on the () button. If you tap on the back-arrow, you will get the most recent word.

If you want to remove a word from the history list, just "Tap N Hold" on the list then you can see the pop-up menu as:

Menu Tools

includes the following functions:

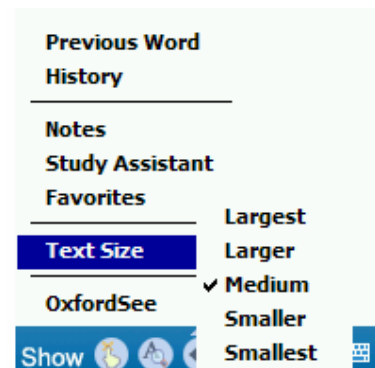

- ◆ Advanced Search To search for a special pattern such as "? * " or Anagrams
- ◆ Select All To select all text in the active window of OxfordGo
- ◆ Copy To copy a selected section
- ◆ Smart Tap To show popup menu or definition
- ◆ Preferences... To configure OxfordSee and OxfordGo
- ◆ Oxford Dictionaries To choose which Oxford dictionary you want to use
- ◆ About To show copyright and registration of the product
- ◆ Exit To close the dictionary

 You have to purchase to open all the Oxford dictionaries, please come back to our homepage for more information.

Menu Show:

includes the following functions:

◆ Previous Word	To return to the most recent word
◆ History	During every work session the system will automatically save all words looked up to the history list (these will not be saved when you turn the device off)
◆ Notes	To show all words that have notes attached.
◆ Study Assistant	To show study list, the list can be separated into words studied by any week or month.
◆ Favorites	To show favorites list
◆ Text Size	To change the text-size in the meaning view
◆ OxfordSee	To show OxfordSee on the task bar

 If you want to close OxfordSee, tap and hold the icon, tap on exit

Preferences

This function will allow you to customize some features of this application.

General:

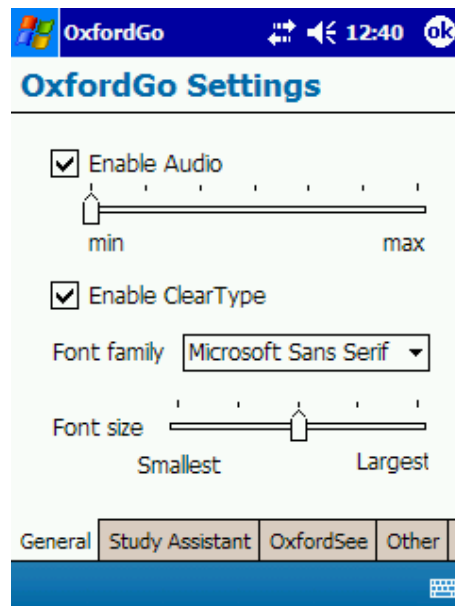

The settings are accessible through **Tools>>Preferences... >>General**

Enable Audio: To activate the audio pronunciation feature. You can also adjust the volume of the voice (this is an internal adjustment and will not affect other applications)

Enable Clear Type: If you want to read text clearer then choose this option.

Font family: Change font type in the meaning view

Font size: Change font size in the meaning view

Study Assistant

Default Wordlist: choose the word-list you want to use for your study assistant function.

Auto add: the number of words you want to be automatically added to the study-list each day.

Add Now: add the words to the study-list.

Random/Sequential: add the words to the study-list randomly or sequentially.

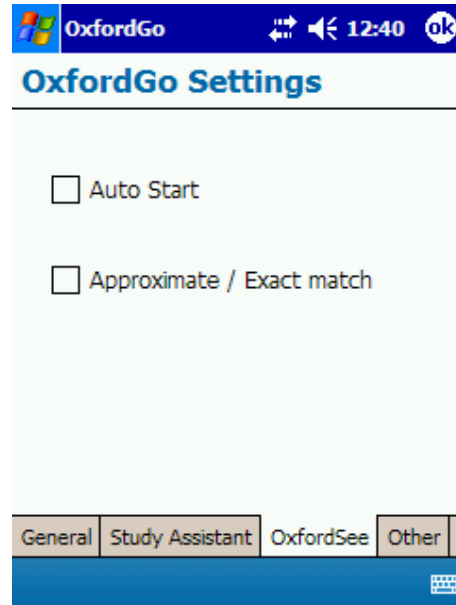

Clear All: To clear the study list. All previous studied words will be removed.

OxfordSee

Auto Start: automatically start Lexisee when the device starts.

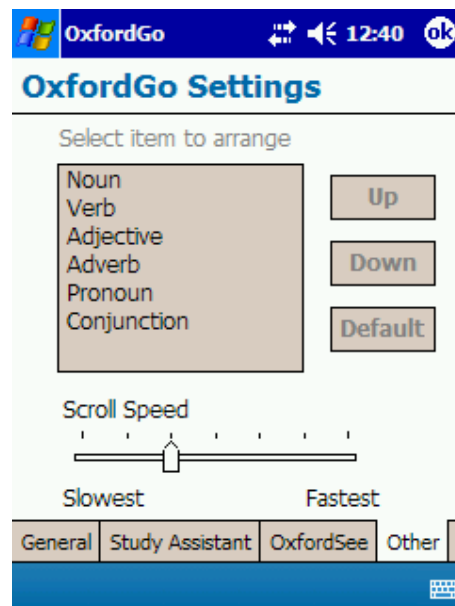

Approximate/Exact match: If this option is checked, the system will search for words with similar spelling if no exact match is found. If not checked, it will instead say "word not in word list!"

Other

You can change word-type order in definition view in here, just select word-type and move up/down to arrange its order. This feature is very helpful for advanced learner.

You also can change the speed of scrolling in the definition window.

Using OxfordSee:

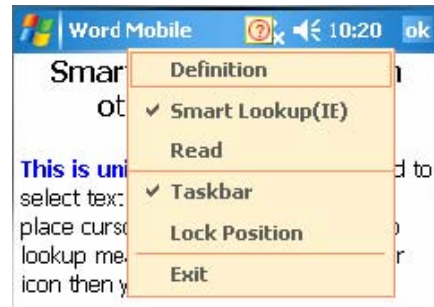

To find words in other applications such as MS Reader, Mobipocket Reader, Pocket IE, Opera Brower, PocketBible, Pocket Word and Notepad. OxfordGo provides you with the OxfordSee module.

For example, from Pocket Word, just move the indicator to the word you want to lookup and then tap on onto the OxfordSee  button to see the definition.

And If you turn-on "**Smart Lookup (IE)**" feature then you can lookup

word in Pocket IE by tapping on word instead of selecting and then tap on OxfordSee (see beside picture). If you want to get further information visit "**Virtual Tour**" at the product's homepage.

If you want to hear a long text read out, select the section you want to hear, "Tap n Hold" on the OxfordSee button and then choose menu and <Read>

 You cannot use smart text selection for non-editable objects in Pocket MS Reader or Pocket IE, instead you have to select the word first and then tap on the OxfordSee symbol. You are also able to change into Full-view screen from the Quick-view screen of OxfordGo if you tap on the {**home**} button.

How to buy and register OxfordGo with Oxford Dictionary

OxfordGo is dictionary reader, a component of Oxford Dictionary package, so if you purchase Oxford dictionary product then you will receive both Oxford Dictionary data files and OxfordGo (the dictionary reader).

To register the software, order the product from:

1. www.ppclink.com
2. www.pocketgear.com
3. www.handango.com

 From the above addresses, we offer the same standard price. However, the price can vary at times between the addresses due to sale promotions.

* If you purchase directly from our websites at www.ppclink.com, you will receive an account by which you can download upgraded versions, submit questions as well as get access to our direct support. After purchasing, you will receive an email from **2CO** and we will send you account information you should use to login to our website: <http://www.ppclink.com/?ppclink=member> to get the Serial Key. In case this is lost, you can re-login and receive a new one.

After receiving the registration key, unlock the product:

1. Go to **Start menu >> Programs** then tap on OxfordGo icon to start.
2. Go to Menu **Tools >> About**.
3. Enter the key and tap on Register button.

 The Name on Oxfordgo's about box is not changeable, if you wish to change the owner name please go to **Start menu >> Settings >> Owner Information**

After successfully completing registration, please write down the name and number and store in a safe place. You will need the registration key if you are going to reinstall the software in a new device or incase your device is hard-reset.

If you have any further questions, please do not hesitate to contact us at:

PPCLINK Support support@ppclink.com
