## Introduction of Oxfordgo for Motorola Q

---

The OxfordGo for Moto Q (dictionary reader), especially developed for the Motorola Q community, is based on the renowned dictionaries from Oxford University Press. It allows you to use 5 different dictionaries such as Concise Oxford Medical, English – Spanish, Spanish – English, English – German and German - English at the same time.

- Concise Medical Dictionary © Market House Books Ltd 2003
- Concise Oxford Duden German Dictionary © Oxford University Press and Bibliographisches Institut & F.A. Brockhaus AG 2005
- Concise Oxford Spanish Dictionary © Oxford University Press 2004
- Pattern, Anagram and Phonetic search **new**
- Arrange-able word-type in definition layout **new**
- Built-in **Grammar and Effective Writing Handbook**
- Auto-scroll in definition window
- Smart favorites for better learning
- Supply idioms to help more apply
- History (quick access to last words you searched)

## How to Install Oxfordgo to Motorola Q

---

Requirements: The product only requires 2.5 MB of free space. You need to have MS Active Sync Software on your device.

Unzip downloaded file to a folder with a zip tool. The popular unzip program **WinZip** is available at [www.winzip.com](http://www.winzip.com)

1. Run setup and follow instructions
2. After finishing this step the game will be installed and an icon is created in Program menu, go to Start >>Program, you will see Icon of Oxfordgo

We recommend storing in the Storage Card when the installation asks to select **Main Memory** or **Storage Card**.

---

 You can copy the CAB file to your device and run the CAB file directly but it will automatically install the software to the main memory.

---

## **Uninstallation**

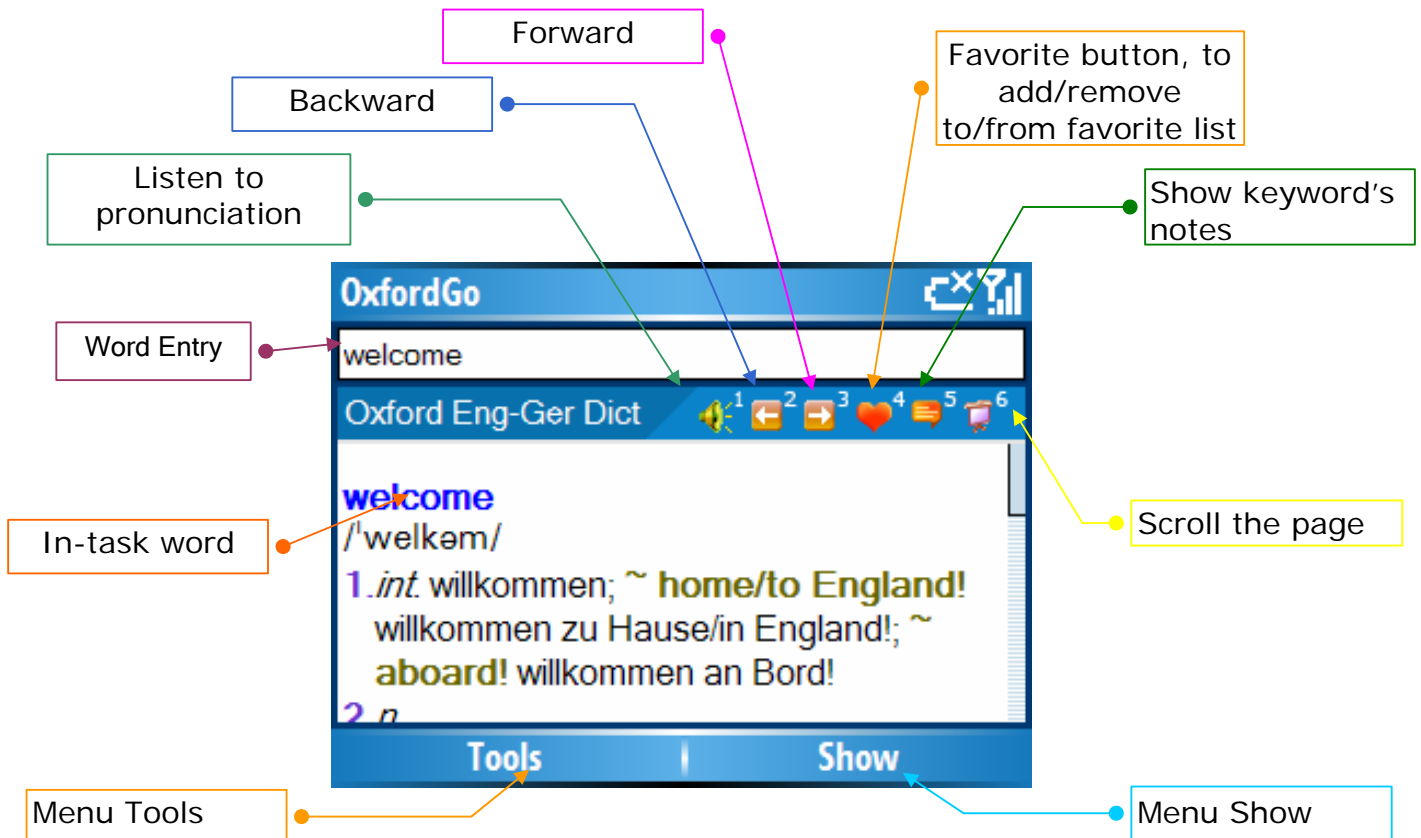

---

To remove the product from your Motorola Q:

1. Go to **Start menu >> Settings**
2. Choose **Remove Programs**
3. Select Oxfordgo for Motorola Q from the list and tap on the **Remove** buttons
4. Choose "**Done**" to confirm removing

## Main Screen of Oxfordgo:

The main module allows you to search by word, by fixed form, to listen to pronunciation.

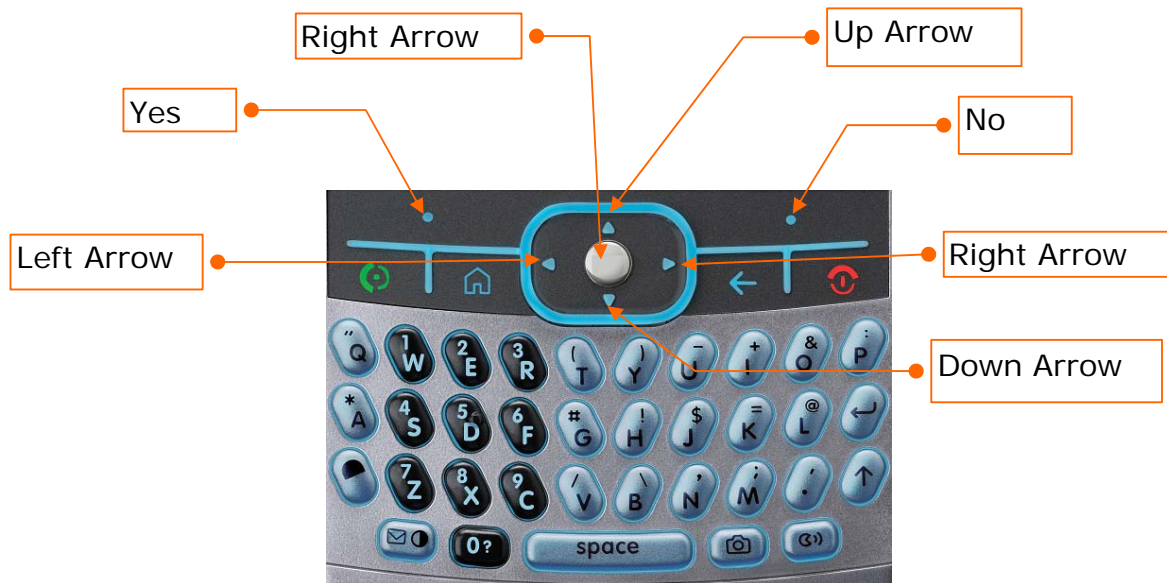

---

 As you can see on the main screen, each feature has number. For instance, to hear pronunciation a word, please "press and hold" the number.

---

## Instruction of functions

**Word search:** to search for a word, simply type it in the field, tap on the **“Enter”** button and the meaning will appear. You also have the alternative of choosing the word from the list-box.

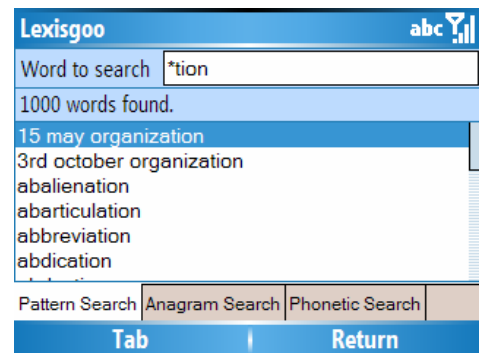

When pointer is focusing on the word entry, you only tap on the **“Down Arrow”** button to see the Keyword List or tap on the **“Up Arrow”** button to link to Thesaurus.

**Advanced Searches:** To open these features, you go to **Menu Tools (Yes) >> Advanced Search (1)**.

### **Pattern Search:**

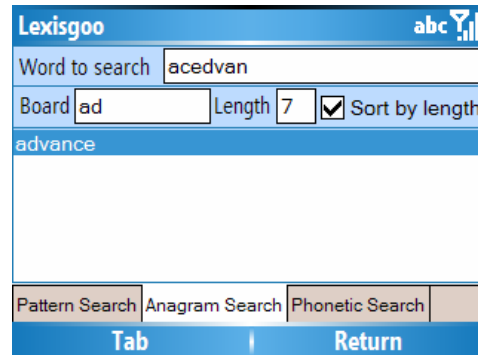

In addition to searching by the regular method, with Oxfordgo you can also search by pattern. For example:

- To search words including **“tion”**, you type **{\*tion\*}**
- The **“?”** mark stands for one character.
- The **“\*”** mark stands for none or several characters.

 On the main screen, use Tap (yes) button to switch to Anagram Search or Phonetic Search.

**Anagram search:** With this function you can search for words built up by the same letters. All letters from the “board” box will be included, while only one letter from the “rack” box will be included in each word. You can sort the result by length.

 On the main screen, tap on “Down arrow” button to switch to another box.

**Phonetic search:** You enter an approximate spelling of a word. The phonetic search will return a list of words that SOUND like what was entered. Phonetic search will automatically search for words which are spelled differently but may sound the same

**Adding notes:** With this utility, you can attach comments to the in-task word. On the main screen, “Press and hold” number 5 and enter your notes for the current in-task word, save notes by press “yes” button.

 If a keyword contains a comment, the Notes Icon will change color to . To remove your comments, just open **Menu Show (No) >> Notes(3) >> Choose “Remove” or “Remove all”**.

**Audio Pronunciation:** Oxfordgo is the first program that provides word pronunciation. After searching, “Press and Hold” number **1** to hear the audio pronunciation. Together with the phonetic transcript feature, it can be a helpful function for improving your pronunciation. For the audio feature to work properly, please make sure that you have activated sounds for Programs at **Start menu >> Preferences >> Enable Audio**.

**Using favorites list:** To add a word to the favorites list, just “press and hold” number 4. To remove a word from the list, merely open **Menu Show (No) >> Favorites(4) >> Choose categories >> Remove**.

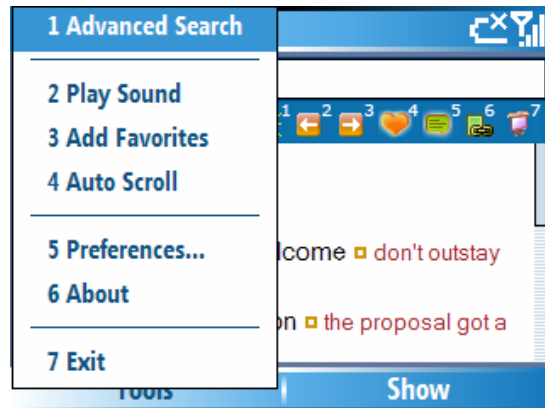

**Using history list:** This is a list of the words previously looked up. At present, the list is limited to **500** words and they are stored automatically. To access the list, tap on **Menu Show(No) >> History(2)**. If you tap on the back-arrow, you will get the most recent word.

If you want to remove a word from the history list, just choose **Options(Yes) >> Remove** from the list

Menu Tools

includes the following functions:

- ◆ 1 Advanced Search To search for a special pattern such as “? \*”, Anagrams or Phonetics
- ◆ 2 Play Sound To hear the pronunciation of in-task word
- ◆ 3 Add Favortites To add in-task word to favorite list
- ◆ 4 Auto Scroll To scroll the page automatically
- ◆ 5 Preferences... To configure Oxfordgo

- ◆ 6 About To show copyright and registration of the product
- ◆ 7 Exit To close the dictionary

Menu Show:

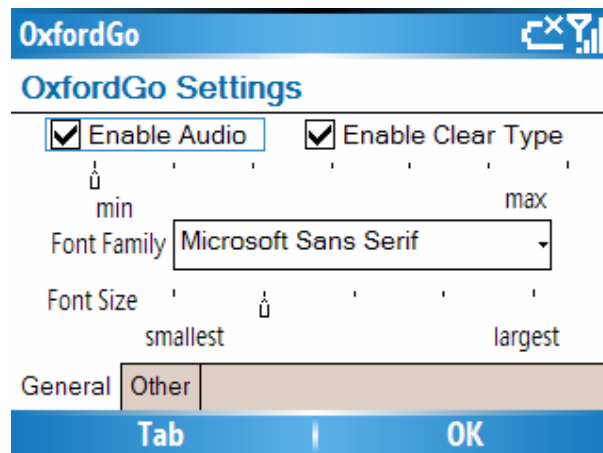

includes the following functions:

- ◆ 1 Previous Word To return to the most recent word
- ◆ 2 History During every work session the system will automatically save all words looked up to the history list (these will not be saved when you turn the device off)
- ◆ 3 Notes To show all words that have notes attached.
- ◆ 4 Favorites To show favorites list
- ◆ 5 Text Size To change the text-size in the meaning view

Preferences

This function will allow you to customize some features of this application.

## General:

The settings are accessible through **Tools>>Preferences...>>General**

**Enable Audio:** To activate the audio pronunciation feature. You can also adjust the volume of the voice (this is an internal adjustment and will not affect other applications)

**Enable ClearType:** If you want to read text clearer then choose this option.

**Font family:** Change font type in the meaning view

**Font size:** Change font size in the meaning view

Please use "**Down Arrow**" button to switch to another box.

---

 On the main screen, use Tap (yes) button to switch to other part.

---

## Other

You can change word-type order in definition view in here, just select word-type and move up/down to arrange its order. This feature is very helpful for advanced learner.

You also can change the speed of scrolling in the definition window.
